

R&D Project Manager - IVD

Company: NIB Biotec

NIB Biotec, founded in 2017 as spin-off of Università degli Studi di Torino, is a medical device startup committed to revolutionizing healthcare through innovative research and development initiatives. NIB Biotec is developing rapid test for prostate cancer diagnosis.

Location: Milano - Italy

Position Overview:

NIB Biotec is seeking a highly motivated R&D Project Manager to join our team. The successful candidate will be responsible for managing various research and development activities within our organization. The R&D Project Manager will play a pivotal role in driving project success by overseeing project timelines, budgets, resources, and deliverables while ensuring alignment with company goals and objectives.

Key Responsibilities:

- Execution of R&D experimental activities such as Verification and Validation testing, performances testing
- Planning, execution and reporting of preclinical development activities.
- Carry out tests and analyses on materials, components and finished products in order to ensure compliance with quality requirements.
- Communicate project updates, milestones, and outcomes to key stakeholders, including senior management and investors.
- Build and maintain strong relationships with internal and external stakeholders to facilitate project success.
- Ensure adherence to regulatory requirements, industry standards, and company policies throughout the project lifecycle.
- Implement quality assurance processes to maintain high standards of research and development activities.

Qualifications:

- Bachelor's degree in a relevant scientific discipline required (Chemistry, Biology, Pharmaceutical Chemistry and Technology or Biomedical Engineering); advanced degree (e.g., PhD, MBA) preferred.
- Experience in lateral flow assays design.
- Strong understanding of research and development processes, including preclinical and clinical development.
- Fluent English.

Plus:

- Experience in project management, preferably in the biotechnology or medical device industry.
- Knowledge of regulatory requirements and compliance standards in the medical device industry is desirable.
- Experience with ELISA method.

Benefits:

- Competitive salary commensurate with experience.
- Opportunities for professional development and career advancement within a dynamic and growing organization.
- A collaborative and inclusive work environment that fosters innovation and creativity.

Join NIB Biotec and be part of a passionate team dedicated to making a difference in the lives of patients worldwide through groundbreaking research and development initiatives. Apply now to embark on an exciting career journey with us!
